CERTIFICATION

buildingSMART Foundation (2025)

SKILLS

- EIR and BEP (ISO 19650)
- CDE (ACC Docs) and traceability
- BIM coordination (design and construction)
- openBIM/IFC (interoperability)
- Public procurement (tender docs)

TOOLS

- Autodesk Construction Cloud
- Revit / Navisworks
- AutoCAD
- Microsoft Office
- IFC tools (e.g. BIM Vision)
- VBA/Python programming
- SWMM

PROFILE

Civil Engineer (IST) and BIM Manager at Lisbon City Council, with 8+ years supporting public procurement and the technical follow-up of design and construction works, with a strong information-management focus. In the Lisbon General Drainage Plan (PGDL, approx. EUR 132M), I lead BIM processes aligned with ISO 19650: EIR definition and implementation, BEP review, CDE management (Autodesk Construction Cloud) and model-quality control (geometry and data). I facilitate BIM coordination meetings and keep structured records of decisions and actions. Strong experience in public procurement (tender documents, proposal review, reports and juries) and in openBIM/IFC, reinforced by active involvement in buildingSMART Portugal and CPT/ITA.

EXPERIENCE

Lisbon City Council (CML)

Lisbon General Drainage Plan (PGDL)

BIM Manager / Civil Engineer | Jan 2021 - Present (BIM Manager)

Jul 2017 - Dec 2020 (Civil Engineer)

PGDL - stormwater tunnels (approx. EUR 132M). BIM implementation from the owner's side, from early stages to operational support, including GIS integration.

BIM Coordination, ISO 19650 and Information Management

- Led BIM coordination throughout design, aligning internal/external teams and controlling deliverables.
- Defined and implemented EIRs (ISO 19650) and technical requirements: LOIN/LOD, formats (incl. IFC), deliverables, roles and acceptance criteria.
- Reviewed BEPs against the owner's requirements and monitored execution.
- Implemented QA/QC routines for models and information (geometry + data), with non-conformity logs and traceability.

CDE / Autodesk Construction Cloud (ACC Docs)

- Structured and managed the CDE: status workflows, permissions, submissions, versioning and audit trails.
- Monitored submissions, reviews and approvals to ensure consistency and traceability.

Technical Coordination and Facilitation

- Led BIM coordination and technical meetings, recording decisions, actions, owners and deadlines.

BIM-GIS Integration and Asset-Management Support

- Defined the BIM-GIS integration strategy for maintenance and operations, focused on data structure and asset-management requirements.

EXPERIENCE (CONT.)

Public procurement, contract management and procedure follow-up

- Preparation of procurement documents and tendering support: Tender Programme (PC) and Specifications (CE), technical analysis of proposals and input to reports.
- Contract manager for the BIM Support to PGDL contract, ensuring technical follow-up, deliverable validation and compliance with requirements.
- Public procurement (cross-cutting experience): recurring participation as procedure manager/follow-up officer and jury member in acquisitions of specialized services within the PGDL (design and construction).
- Technical follow-up of design/construction and complementary studies (boreholes, tests, campaigns and works at LNEC).

Civil Engineer - Basin Q Drainage Works (Parque das Nacoes) | (within 2017-2020 period)

- Basin Q Drainage Works (Parque das Nacoes) - approx. EUR 3M
- End-to-end involvement: preparation of tender documents (PC/CE) and support to the technical evaluation of the procedure.
- Construction follow-up: support to planning, technical control and coordination with supervision/contractor.

Professional Development Internship - Lisbon City Council Feb 2017 - May 2017

- Technical support in hydraulic structures and stormwater networks within the PGDL; validation and preliminary study of sizing solutions.

Intern - Consulgal Consultores de Engenharia Jul 2013

- Support to site supervision/quality control and construction follow-up; technical analysis and practical resolution of non-conformities.

ARTICLES & CONFERENCES

- Esri International IMGIS 2024 - BIM-GIS integration
- PTBIM 2024 - BIM in infrastructure projects
- Autodesk University 2022 - BIM applied to infrastructure
- World Tunnel Congress (WTC 2025)
- ITA Breakthrough 2023
- ENEG 2025
- Webinar "Creating your Digital Twin with Imagery, GIS & BIM" (2024)
- ESRI Portugal User Meeting (EUE) (2023)

EDUCATION

Instituto Superior Técnico

Integrated Master's in Civil Engineering (2011-2016)
Construction Area

ISEP - Instituto Superior de Engenharia do Porto

Postgraduate Course in BIM Coordination (ISEP, 2024)

Instituto Superior de Economia e Gestão

Postgraduate Course: Specialization in Management (2019-2020)

Additional Training

- Initial Pedagogical Training for Trainers
- Occupational Safety Senior Technician (VI)
- General BIM Course (Revit & Navisworks)
- "BIM Objects" Course
- Public Procurement Code Training
- Contract Formation - Direct Award and Prior Consultation.
- Mechanized Methods in Underground Construction
- Introduction to Practice in Underground Works - Module 1
- SWMM (Storm Water Management Model) Course
- Dynamic modelling of urban drainage systems using SWMM (Storm Water Management Model).
- Microsoft Excel: Macros & VBA
- Introduction to Python
- Game Theory Course (Athens Programme)

ASSOCIATIONS

- Board Member - buildingSMART Portugal (Jul 2025 - present)
- Member and Facilitator of Group 4 (BIM) - CPT (Mar 2021 - present)
- Member of WG 22 - ITA-AITES (Jan 2024 - present)
- Member - European Underground & Tunnel Forum (EUTF) (Feb 2024 - present)
- Member - Portuguese Geotechnical Society (SPG) (Nov 2019 - present)
- Member - Young Water Professionals Group (JOPA / APDA) (Jun 2019 - present)
- Full Member - Ordem dos Engenheiros (E2) (May 2018 - present)

LANGUAGES

- Portuguese (native)
- English (advanced user)
- Spanish (basic level)

PERSONAL INTERESTS

- Judo (1st Dan - black belt)
- Recreational sailing
- Nautical certification: Local Skipper License
